

## ALLNET Appliance- / Module- / Sensor - matrix

| ArtNr.        | Description  | Ältere Modelle: (ALL4000V2), ALL4001 |  |
|---------------|--|--------------------------------------|--|
|               |  | ArtNr. (86173 EOL), 59976            | ALL3418V2, ALL3692, ALL3500, ALL4076, ALL4500, ALL5000 |
| 28196         | ALL3002 1x Relay output                                | x                                    | x  |
| 28197         | ALL3003 1x output optocoupler                          | x                                    | x  |
| 27166         | ALL3006 Temp Sensor                                    | x                                    | x  |
| 26780         | ALL3015 Temp Sensor watertight                         | x                                    | x  |
| 27359         | ALL3018 Temp/Humidity sensor                           | x                                    | x  |
| 33501         | ALL3024 mains voltage monitor                          | x                                    | x  |
| 27904         | ALL3025 Contact counter                                | x                                    | x  |
| 31801         | ALL3026 Switch input (contact input 1)                 | x                                    | x  |
| 76814         | ALL3032 brightness sensor                              | x                                    | x  |
| 34417         | ALL3036 Liquid level sensor vertical                   | x                                    | x  |
| 34418         | ALL3037 Liquid level sensor horizontal                 | x                                    | x  |
| 36788         | ALL3051 PIR motion detector                            | x                                    | x  |
| 61957         | ALL3054 Shock sensor                                   | x                                    | x  |
| 102434        | ALL4013 HUT / voltage converter 24V auf 12V            | x                                    | x  |
| 106663        | ALL3527B HUT / 6x 250V/10A Relay DIN rail              | -                                    | x  |
| 106665        | ALL3542 HUT / 8x contact input                         | -                                    | x  |
| 60987         | ALL4006 HUT / Temp sensor                              | x                                    | x  |
| 59978         | ALL4012 Power supply f. 4001/4027                      | x                                    | x  |
| 60988         | ALL4018 HUT / Temp/humidity Sensor                     | x                                    | x  |
| 61959         | ALL4020 HUT/1x Relay output                            | x                                    | x  |
| 64681         | ALL4022 HUT / VDC voltmeter                            | x                                    | -  |
| 72556         | ALL4023 HUT/3xVDC voltmeter                            | x                                    | x  |
| 60991         | ALL4024 HUT/voltage monitor 1Phase                     | x                                    | x  |
| 61953         | ALL4025 HUT / Contact counter (S0 Bus)                 | x                                    | x  |
| 59502         | ALL4027 HUT / 8 Port 250V/6A Relay                     | x                                    | x  |
| 60990         | ALL4029 HUT/Temp/Humidity/Pressure Sensor              | x                                    | x  |
| 59979         | ALL4042 / DIN-rail contact input 8x                    | x                                    | x  |
| 59981         | ALL4044 / DIN RAIL 6x relais volt meter 220V           | x                                    | x  |
| 61958         | ALL4054 / DIN RAIL shock sensor                        | x                                    | x  |
| 62422         | ALL4056 / DIN RAIL noise sensor, 27mm width            | x                                    | x  |
| 98820         | ALL4404 Portmultiplexer 8-fach                         | -                                    | x  |
| 101321        | ALL4406 I2C / Temp Sensor                              | x                                    | x  |
| 115545        | ALL4408 / PT100-Temp-Interface with housing *schwarz*  | -                                    | x  |
| 115537        | ALL4409 / PT1000-Temp-Interface with housing *schwarz* | -                                    | x  |
| 102436/ 98823 | ALL4418 I2C / Temp/Humidity Sensor                     | x                                    | x  |
| 113075        | ALL4421 / DC voltmeter *white*                         | -                                    | x  |
| 98824/ 101320 | ALL4425 I2C / Kontaktzähler (S0 Bus)                   | x                                    | x  |
| 98825         | ALL4427 I2C / 4 Port Relais 250V/10A                   | -                                    | x  |
| 98828         | ALL4429 I2C / Temp/Humidity/Pressure Sensor            | -                                    | x  |
| 98831/ 103915 | ALL4432 I2C / Brightness sensor analog                 | -                                    | x  |
| 98836         | ALL4442 I2C / quad Contact Input                       | -                                    | x  |
| 98838         | ALL4444 I2C / quad mains voltage monitor               | -                                    | x  |
| 98840         | ALL4452 I2C / PIR motion dedector                      | x                                    | x  |
| 102435/ 96689 | ALL4454 I2C / Smoke (Gas) Sensor                       | -                                    | x  |
| 91666         | ALL4504 Portmultiplexer 8-fach                         | -                                    | x  |
| 88283         | ALL4506 I2C / Temp sensor                              | x                                    | x  |
| 88284         | ALL4520 I2C / Relay output 1x16A                       | x                                    | x  |
| 88282         | ALL4524 mains voltage monitor                          | x                                    | x  |
| 89722         | ALL4526 1x switching input                             | x                                    | x  |
| 88281         | ALL4529 I2C / Temp/Humidity/Pressure Sensor            | x                                    | x  |
| 88285         | ALL4532 I2C / Brightness sensor analog                 | x                                    | x  |
| 87785         | ALL4590 Powermetermodul                                | -                                    | x  |
