

banana pro board zbh. LN IO Extension Board

EAN CODE

Products Description:

LN IO board is an expansion board designed for Banana Pro, integrates various components and interfaces for easy connecting external accessory modules.

It's ideal for Banana Pi evaluation and development

Features:

- 8 digital outputs
- 8 led indicators
- 4 tactile switches
- 1 I2S interface
- 1 I2C interface
- 2 UART interface
- 2 SPI interface
- 1 LCD 1602 interface
- 1 LCD 12864 interface

Plugs directly onto the Banana Pi GPIO socket

Art.-Nr.: 121958
Herst.-Nr.: LN IO(PCBA)

Applications Example

Easy connect different Sensors

Character display Device

Experiment with Banana Pro
